

Dear Sir;

XM Satellite Radio offers one of the few choices for commercial free radio at a reasonable price and outstanding quality. I listen to the Traffic Reports on my commute to Boston every wrok day; it provides me with the information I need to make intelligent choices. Please listen, for once, to the average joe and reject the NAB's petition 04-160. Please don't limit my choices for entertainment.

Thank you for your time;

Steve Christensen
